What is an Ideation in Healthcare?

Ideation in healthcare brings together many experts together to collaborate on solutions to healthcare problems.

People develop multidisciplinary solutions by bringing different fields together.

Why the Healthcare Ideation is Important: Rapid technological advances are required in healthcare

Innovative & elegant solutions are order of the day.

AI, Blockchain, IOT, Big Data Analytics are some of the Next- Generation Medical Technological Innovations

Significant impact on the application of Information and communication technology in healthcare industry

Digital technology is future of healthcare delivery.

Muller Medithon is designed to unite students, healthcare professionals, and industry leaders to explore technology solutions to today's healthcare challenges.

Father Muller Medical College

ABOUT THE INSTITUTION

1

Father Muller Medical College , established in 1991, will commemorate its 25th anniversary in 2024. From a humble beginning as a medical center, FMCC has developed into a reputable hub for medical care and education.

2

FMCC has a broad curriculum that includes postgraduate and undergraduate courses in a range of medical specializations. This supportive setting equips students to become compassionate caregivers who are devoted to helping people for the rest of their lives in addition to becoming knowledgeable medical professionals.

Fusion of cutting-edge medical technology and considerate care while also combining state-of-the-art medical research with a strong dedication to providing compassionate treatment. Its programs train medical workers to be knowledgeable and compassionate.

About

CEREBRATHON

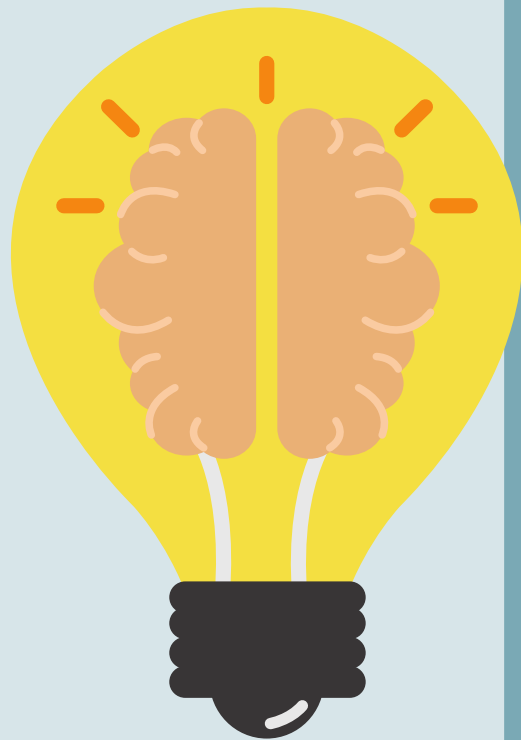

3

The third edition of Cerebrathon is a part of Silvercon 2024, a bigger event that Father Muller Medical College is hosting from July 25th to 27th in the lovely city of Mangalore.

The conference, which takes place over three days, includes a quiz, workshops, paper and poster presentations, and many more surprises.

We are thrilled to announce the upcoming National Level Quiz. This is your chance to showcase your expertise, compete with the best minds in the country, and win amazing prizes!

All quiz participants directly gain access to the conference by participating in the quiz.

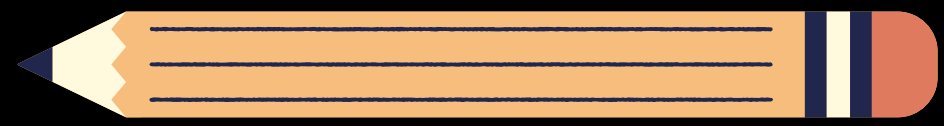

Here is a platform to showcase your in-depth medical knowledge, honed through years of rigorous study.

From anatomy to physiology to pharmacology and clinical diagnosis, the competition puts your understanding of the human body to the ultimate test.

EVENT BREAKDOWN

- ✓ The event will be conducted on 26th and 27th July, 2024.

The National Level Quiz will consist of a wide variety of questions taken from all 19 subjects of MBBS.

- ✓ Prelims will be conducted in the afternoon of the previous day, 26th July, 2024, at the DM Hall, Knowledge Centre, after which contestants can proceed to enjoy the various other exciting events being organised that day. In the meantime, prelims scores will be evaluated.

- ✓ The quiz will be conducted in the afternoon, soon after lunch, at the Decennial Millennial Hall of the Knowledge Centre, FMMC.

The results of the prelims will be announced first, and the Top 8 teams will proceed for the final showdown.

- ✓ At the end of the third round, the scores will be calculated and the top 5 teams will continue on to the last two rounds, while the other three teams will be eliminated.

- ✓ The team with the highest points at the end of all five rounds will be crowned the “Winner of Cerebrathon 2024” while the subsequent two teams will win the first and second runners up respectively.

- ✓ The winners will receive a trophy, certificate and cash prizes worth 45000 rupees. All participants, including those who attempted the prelims, will receive a certificate of participation and lots of fun-filled knowledge.

- ✓ So, come join us on 26th and 27th July and embark on a journey bound to excite and enthrall you! Whether you are a finalist, participant or audience member, there’s everything to gain and nothing to lose....Unless you gamble ;)
